

The Morphy Richards commercial ice maker is designed to produce up to 45kg of square ice within a 24 hour period. With cutting edge technology, the NTC sensor determines the optimal time each 45 ice cube cycle dispenses into the huge 13kg ice basket. Easy to connect to a water supply with the supplied stainless steel inlet hose and 25mm connector, it also boasts an easy-to-use control panel and unique self-cleaning function ensuring the most hygienic ice is available when required.

- Produces up to 45 cubes (22 x 22mm) of ice each cycle
- NTC sensor determines when each cycle is ready to dispense
- 45kg of ice can be made in a day
- Watermark approved

**Produce ice at a moment's notice for everyday commercial use**
